

Cloud Reseller Program

Become a Cloud-Provider - now!

PCS AG as Microsoft Partner Gold has been awarded to Independent Software Vendor and Microsoft Partner Silver Application Integration. We provide competent knowledge in the following scopes:

- to develop innovative software solutions based on Microsoft .net technology
- to develop customized software solutions
- Cloud Computing
- SAAS Provider
- IT-Consulting regarding ITIL- and Process-Management
- IT Security

PCS AG developed an efficient reseller program, which enables our partners even without perfect product knowledge to offer Cloud technology solutions. It will definitely increase your turnover.

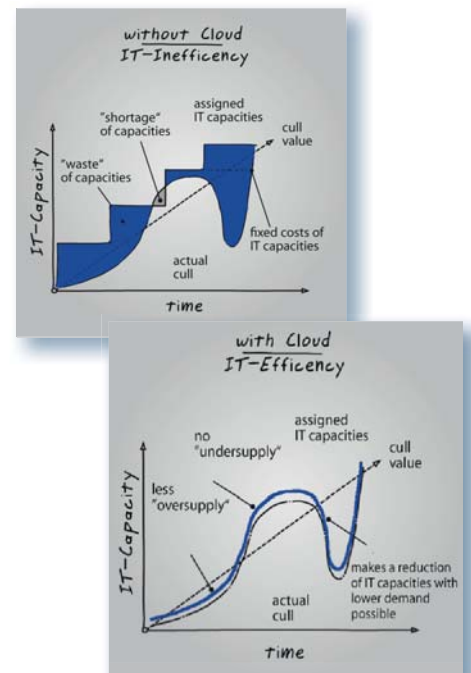

With White Label contracts of PCS AG you might consequently present Cloud Services without bothering about complex

operational hard and software issues. We enable you to become an efficient Cloud-Service Provider with relatively small effort.

The PCS AG's Cloud program makes it possible for you to work closely with your customers and open up new target groups, whereby the IT is better in use without any appropriation of local facilities. All necessary hardware including its maintenance completed by PCS AG. The customer knows only you as a contact person and Cloud-Service provider. The PCS AG will not entering your business relations. Cloud Computing is more than just a technology model.

Cloud Computing changes the way companies are working with. It offers finally flexible structures to simplify your customers work.
